

A mother & her son were scheduled for a hearing before a Juvenile Judge about the son's behavior. The son's attitude was that he is going to "set the judge straight." After the legal navigators spoke to him and told him exactly how his actions would affect the rest of his life, he humbly went to court and asked the judge for another chance. After 3 years, the mother and her son came back and showed the Legal Navigators his College degree and Nursing license.

***We were able to help this  
young man chart a new path!***
